Hi Cristina and Alice,

I've attached a slightly edited version of the letter (mostly just spelling/grammar changes). In addition, Paul has asked that paragraph 3 be edited to:

- clarify what the "greater than 99% compliance" means (specifically, why is 99% compliance good enough vs 100%; what is the control device doing re: the amount of EtO emissions), and
- explain who is part of the "MACT team" – HQ, other Regions, etc.

If you add that info to the attached version, I can PDF the document and prep it for Diana's signature. Thanks!
